

XXIII

MIDDLE EUROPEAN BUIATRICS CONGRESS

Apr 23-27 2024 Brno, Czech Republic

Hotel Atlantis | www.mebc2024.cz

FIRST ANNOUNCEMENT

Dear Colleagues!

It is my great pleasure to invite you all to XXIII. Middle European Buiatrics Congress organized by Czech Association for Buiatrics, with cooperation of Faculty of Veterinary Medicine, University of Veterinary Sciences Brno, which will take place in Hotel Atlantis in Brno between 23rd and 27th of April 2024.

Workshop of Small ruminants - Goats Health Management will be held on the 24th of April in Ratibořice. Lectures and posters will be presented on the 25th and 26th of April, 2024 in Hotel Atlantis, Brno. It is also our pleasure to host ECBHM AGMs at our congress. For the first time in the history of MEBC, a student session will be part of the conference programme. Accompanying persons can look forward to extensive tourist attractions of Brno and its surrounding area.

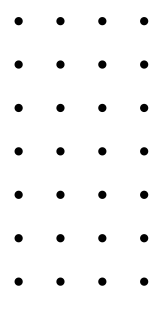

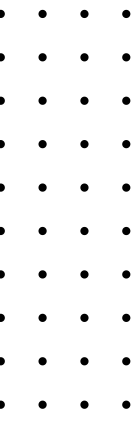

Located at the confluence of the Svitava and Svatka rivers, Brno is the former capital city of Moravia and the political and cultural center of the South Moravian Region. A vibrant university city with about 60,000 students has also become home to a number of institutions related to research and development.

Brno offers hundreds of tourist attractions, some of which are listed among the national cultural heritage of the Czech Republic. The most visited sights of the city include the Špilberk Castle and fortress and the Cathedral of St. Peter and Paul, two medieval buildings that dominate the cityscape. Another architectural monument is the functionalist Villa Tugendhat, which was designated a World Heritage Site by UNESCO. Next to Muni Mendel Museum there is the very famous St. Thomas's Abbey where Gregor Mendel conducted his groundbreaking experiments in genetics in the 1850s. Another large preserved castle is Veveří Castle by Brno Reservoir, which is located near to our congress place. And many other attractions, which are waiting for your visit.

The buiatrics congress in Brno will provide an excellent platform to promote the advancement and dissemination of scientific and practical aspects of ruminant medicine among researchers, students and practitioners internationally. Through collaborative efforts, we can achieve further significant discoveries in the field of ruminant medicine.

I am very much looking forward to meeting you all at XXIII. Middle European Buiatrics Congress in Brno.

President of Czech Association for Buiatrics
Josef Illek

ORGANIZERS

Czech Association for Buiatrics in cooperation with Faculty of Veterinary
Medicine, University of Veterinary Sciences Brno

STUDENTS SECTION

For the first time in the history of MEBC, a student session will be part of the conference programme led by Univ-Prof. Walter Baumgartner, Dr. h.c., Dipl. ECBHM. Students/Ph.D. students will be kindly asked to prepare their presentation (8 min speech + 2 min discussion). The best presentations will be awarded and officially announced.

PUBLICATION IN JOURNAL OF ACTA VETERINARIA BRNO

As part of the cooperation with our congress, Acta Veterinaria Brno (IF 0.8;) offers a possibility to publish scientific works from the congress in the Journal free of charge. Interested parties can mark "YES - I wish to publish my manuscript in Acta Veterinaria Brno" in the last box of the abstract submission form at our website application. The best 15 - 20 chosen abstracts will be asked for article preparation according to journal instructions. Revision of articles will take approximately 2.5 - 3 months. More information about article submission will be specified in details at the website soon.
